### PROFILE SUMMARY

An Architect and Designer turned into a Developer. I bring unique Front-End Development skillset combined with my background in Architecture and UX/UI Design. I have experience developing responsive, user-friendly, and accessible web applications using Javascript, React, HTML, CSS, Firebase. I also created visual designs, prototypes, and wireframes using Figma, Sketch, and other tools.

### PROJECTS

#### **Binge Fest** / React, RESTful APIs, Firebase, and CSS

Dec 2020 - During Bootcamp

- Smoothly connects 3 APIs and a corresponding real-time database in Firebase.
- Integrated a map using the Google Maps API and functionally connected it to the Yelp API.
- Used React and Firebase to dynamically load a selection based on the user's location and the shows stored within our database.
- Worked in a team environment that was fully autonomous, self-motivated, and delivered on deadlines set by the team.

#### **So Serious!** / jQuery, Sass/CSS and HTML

Nov 2020 - During Bootcamp

- Developed a card game using jQuery and Sass preprocessor.
- Worked independently while practicing time management to meet deadlines set by the instructors.
- Delivered a fully responsive web game for a one week project.
- Added card flipping effect to enhance user experience.

### WORK EXPERIENCE

#### **UX/UI Designer** / Freelance

Apr 2020 - Sep 2020, Toronto

- Contributed to COVID-19 initiatives and related products by conducting user research, usability tests, creating user flows, wireframes, and high-fidelity mockups.

#### **Architectural Designer**

Eomac Ltd. / Apr 2019 - Mar 2020, Toronto

Canamould Extrusions Inc. / Jul 2016 - Apr 2019, Toronto

Penegal Trim & Supply Ltd. / Oct 2014 - Jul 2016, Toronto

Solution Build Group Inc. / May 2014 - Oct 2014, Toronto

- Collaborated with the design and technical teams to develop concepts, sketches, and drawings of the products using AutoCAD, Revit, Photoshop, and Illustrator.
- Assisted various clients, received their feedback, and advised them of appropriate options to achieve their design goals.

### SKILLS

**Web Development:** JavaScript, jQuery, React, HTML5, CSS3, SCSS/SASS, Firebase, Node.js, RESTful API, Git.

**UX/UI Design:** Figma, Sketch, Adobe XD, InVision, Photoshop, Illustrator.

**Additional:** AutoCAD, 3D Max, Revit.

### EDUCATION

#### **Web Development Immersive**

**Bootcamp** / Juno College

(formerly HackerYou)

Sep 2020 - Jan 2021, Toronto

Provided foundational knowledge in JavaScript, front end frameworks (React), and RESTful APIs.

Worked in both collaborative and independent projects to translate requirements into polished web applications.

#### **Eng. Software Skills**

**Enhancement** / Humber College

Jan 2015 - Apr 2015, Toronto

#### **BA. Architecture** / Azad University

Mar 2006 - Apr 2010, Iran

### CERTIFICATES

#### **User Experience Design** /

BrainStation

Jan 2020 - Mar 2020, Toronto

Completed a series of workshops and created a mobile app.

#### **User Interface Design** /

Red Academy

Oct 2018 - Dec 2018, Toronto

Completed a series of workshops and designed a website.
