REZA SOLEIMANI

FRONT END DEVELOPER

<

/ ALL ABOUT ME

A Designer/Architect turned into a Developer. I bring a unique Front-End Development skillset combined with my background in UX/UI Design and architecture. I have experience developing responsive, user-friendly and accessible web applications using JavaScript, React, TypeScript, HTML and CSS. I also created visual designs, prototypes and wireframes using Figma, Sketch, Adobe XD and other tools.

/ WORK EXPERIENCE

>> Front End Developer
Agile Humanities Agency | Feb 2021 - Present, Toronto
- Collaborating with the engineering team and product management to define and implement innovative solutions for the product direction, visuals and experience and build fully responsive web applications.
- Designing and developing high-quality dynamic CMS websites.

>> Web Developer
Co.Lab | Feb - Mar 2021, Toronto
- Virtual program - worked in a small team with a product manager and designer to build and ship a real product (a Chrome extension) within a five-week turnaround.

>> Web Development Workshop Co-Mentor
Juno College | Feb 2021 - Present, Toronto
- Assisting the workshop by answering questions and helping attendees troubleshoot their code.

>> UX/UI Designer
Freelance | Apr - Sep 2020, Toronto
- Contributed to COVID-19 initiatives and related products by conducting user research, usability tests, creating user flows, wireframes and high-fidelity mockups.

>> Architectural Designer
Eomac | Apr 2019 - Apr 2020, Toronto
Canamould Extrusions | Aug 2014 - Apr 2019, Toronto

/ PROJECTS

>> Binge Fest
React, RESTful APIs, Firebase and CSS
- Created a smooth connection for 3 APIs and a corresponding real-time database in Firebase.
- Used React and Firebase to dynamically load a selection based on the user's location and the shows stored within my database.
- Worked in a team environment that was fully autonomous, self-motivated, and delivered on deadlines set by the team.

>> Morning! (Chrome Extension)
JavaScript, CSS and HTML
- A browser extension that encourages you to build a healthier routine for your day.
- Worked in a team of three, including a product manager, designer and myself as a developer.
- Delivered a fully responsive extension for a three-week project.

/ EDUCATION HISTORY

>> Web Development Immersive Bootcamp
Juno College | Sep 2020 - Jan 2021, Toronto
